JAI SURYA J

Frontend Developer (React.js | Next.js)

Chennai, India | +91 6369391891 | jayasurya0713@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Frontend Developer with 2+ years of experience building responsive, high-performance web applications with **React.js, Next.js, TypeScript** and **JavaScript (ES6+)**. Delivered 4+ production platforms across AI-powered hiring, resume matching, real-time chat and e-commerce, integrating REST APIs, WebSockets and payment gateways (Razorpay, Stripe).

SKILLS

Languages & Frameworks: JavaScript (ES6+), TypeScript, React.js, Next.js, HTML5, CSS3
State & UI: Redux Toolkit, Context API, React Hooks, Tailwind CSS, Material UI, shadcn/ui, Bootstrap
APIs & Real-Time: REST APIs, WebSockets, Socket.io, Payment Gateway Integration (Razorpay, Stripe)
Backend & Database: Node.js, Express.js, MongoDB Atlas
Auth & Security: JWT, OAuth, Role-Based Access Control (RBAC), Protected Routes & Session Management
Tools & Platforms: Git, GitLab, Bitbucket, Postman, AWS (EC2), Vercel, Hostinger, PuTTY, Figma, Zoho Sprints, Asana
Practices: Agile/Scrum, Code Reviews, Responsive Web Design, Component-Driven Architecture, Performance Optimization

WORK EXPERIENCE

Frontend Developer | Apzzo Technologies Private Limited, Chennai, India
March 2024 – May 2026

- Built and shipped **6+ production features** using React.js, Next.js, TypeScript, Redux Toolkit and Material UI, owning delivery from design handoff through deployment.
- Improved frontend performance by **~30%** (fewer re-renders, faster load) through optimized component structure, memoization, code-splitting and reusable UI patterns.
- Led code reviews for a team of **3 developers**, setting coding standards and mentoring juniors on React best practices.
- Delivered features on time across Agile sprints with UI/UX designers (Zoho Sprints, Asana, Postman), and deployed applications on **AWS (EC2)** and Hostinger using Git and PuTTY.

PROJECTS

Effect-AI – HireManage (AI Hiring Platform)

- Developed a multi-tenant, AI-powered hiring platform with RBAC for Super Admin and Hiring Manager roles.
- Built a structured 4-step hiring workflow: JD Upload → SkillDNA Generation → Interview Plan → Interview Guide.
- Integrated AI APIs for resume parsing, candidate-role matching and fit scoring.
- Implemented real-time background processing with WebSockets to push live AI evaluation updates.
- Developed candidate lifecycle modules for Resume Screening, Shortlisting, Interview Tracking and Hiring.
- Built a scalable, responsive UI using React.js, Next.js, Redux Toolkit and Material UI.

Candidate Resume Fit Platform (AI Resume Matching)

- Developed an AI-powered resume-to-job matching platform using React.js, Next.js, Redux Toolkit and REST APIs.
- Implemented resume upload, job-role targeting and automated AI-based fit analysis.
- Integrated AI APIs for resume parsing, skill extraction, semantic matching and compatibility scoring.
- Built dynamic dashboards showing skill-gap analysis, match percentage and structured evaluation insights.
- Designed a responsive, performance-optimized UI with Material UI and a scalable component architecture.

PointerUp Platform (E-Commerce & App Builder)

- Developed an e-commerce platform with drag-and-drop website and native iOS/Android app builders, letting businesses launch online without coding.
- Integrated POS and rider delivery management, with real-time inventory sync across online and physical stores.
- Built in-app chat, push notifications and smart banners to improve user engagement and retention.
- Delivered real-time order management and customizable storefronts for seamless multi-channel commerce, using React.js, Next.js, Redux Toolkit and Material UI.

Ecademictube – Real-Time Chat Application

- Developed a scalable real-time chat UI using React.js and Redux Toolkit with a component-based architecture.
- Integrated Socket.io (WebSocket client) for real-time messaging, typing indicators and online/offline presence.
- Implemented frontend JWT authentication with protected routes and session management.
- Optimized large chat histories with virtualized rendering (react-virtualized-auto-sizer), lazy loading and efficient state management (useState, useEffect, Context API).
- Built responsive, reusable UI components with Material UI and integrated REST APIs.

EDUCATION

BE, Mechanical Engineering | Dhanalakshmi Srinivasan Engineering College | 2019 – 2023 | CGPA: 7.05
